

MS Europa 2 unplugged : Heather Nova performs live on board

- **Exclusive concerts with an intimate atmosphere**
- **EUROPA 2 cruise from Hamburg to Dublin**

When Hapag-Lloyd Cruises' EUROPA 2 sails from Hamburg to Dublin in September, guests will enjoy exclusive concerts performed by Heather Nova, the internationally-acclaimed singer and songwriter. As part of the UNPLUGGED music format, she will thrill audiences with her unique musical style in captivating stage shows on board the luxury ship.

Heather Nova made her international breakthrough in the 1990s with her studio album *Oyster*. Songs such as "Walk This World" led her to her first world tour. Heather's second album *Siren* was also a great success and established her on the international music scene. With singles, which have charted around the world, she has also been invited to appear at the biggest festivals in Europe and the USA.

Her music creates a unique connection between different

instruments with a very personal style that does not fit into any one genre. Heather combines the sound of a classic rock band with gentle cello melodies overlaid with the siren call of her crystal-clear voice. Her captivating live performances in particular have gained her a large fan base.

The live concerts held on the EUROPA 2 are part of the UNPLUGGED themed cruise format. Unlike concerts in big halls, or stadiums, outstanding musicians appear in the theatre on board the luxury ship, lending their performances to create a personal, almost intimate atmosphere. Another cruise of the UNPLUGGED format will take place in November/December 2018:

UNPLUGGED cruise: From Colombo to Singapore, 29.11.2018 – 09.12.2018 (10 days), from € 5.690 (\$ 6,550, £ 4,840) per person. More information online at:
